Treasurer Report

- There are a couple student there are on payment plan from the Met Life but most have paid in full as of today.
- In the mail today we received 2 checks; one was for a grant in which we use towards bus expenses for the Big E trip. The other was a donation from a family that will go toward padding for harnesses. Kim O'Neill has also agreed to put her profits from the glassware sales toward the padding as well. With both of these generous amounts the padding for all harnesses should be covered.
- The giving Tuesday donation that Jackie put on Facebook was published two weeks ago and has brought in around \$650. It is a possibility that Facebook may match this amount.
- We may not be making a lot of payments in December since all marching band items have been paid for and percussion spending has not quite started yet. The only last item to be paid from marching band season that is left are for the Voice overs. We are just waiting for a bill.
- We have around \$53,000 in the bank and anticipating a check from Gillette any day.
- Jackie did our taxes which took a long time (20-25 hours) and came out perfectly. We will pay \$35 in state tax which is the minimum amount. Quickbooks should be much easier and faster in the future for tax preparation.
